**Tango Office Environments Named a Medal Winner of Washington's
Best Workplaces by Puget Sound Business Journal**
2008 Finalists honored and winners announced

SEATTLE, WA – August 14, 2008 - Tango Office Environments was named as a Silver medal winner of the Washington's Best Workplaces award by the Puget Sound Business Journal at an event which drew more than 1,200 people to Safeco Field on Aug. 13.

The Washington's Best Workplaces program was launched last year by the Business Journal to identify and recognize best practices in the hiring and retention of great people. After an extensive and rigorous process, which included more than 300 nominees and the completion of surveys by nominee-company employees across the state, workplaces in four different categories were identified as Washington's best, based on their various employee benefit offerings, leadership culture and work/life balance philosophies. In total, 65 companies made the grade as finalists.

At the awards event on Aug. 13, the companies with the top three scores in the small, medium and large company categories and the top-scoring organization in the nonprofit category were given special recognition and will be profiled in a special publication of the Business Journal on Aug. 15.

Tango Office Environments is one of the Pacific Northwest's preeminent commercial office furniture and services providers. Tango was founded by a core group of members who have worked together for more than a decade and were determined to create a truly customer focused dealership. Aligned with Allsteel from day one, Tango has quickly gained a reputation for doing great work and wowing their clients

"This is such a wonderful compliment to everyone here at Tango and recognition of the great things done here day in and day out!" said Darrell Coutts, Principal and owner of Tango Office Environments. "From day one we have tried to create a work environment that is more about people than process – we try to wow our clients, our community, and each other daily and I am so glad we've been able to make that vision a reality."

"Work-force development has never been more important – or more difficult – than it is in today's global economy," said Emory Thomas Jr., publisher of the Business Journal. "We believe the Business Journal, as the Puget Sound area's top source of business information, has an important role to play in drawing attention to innovations and excellence in the management of our region's No. 1 resource: its people."
